

# YOUR OPIOIDS ARE YOUR RESPONSIBILITY

Always follow instructions for opioids (such as hydrocodone, oxycodone, morphine, fentanyl and codeine). Keep yourself and those around you safe:

**SECURELY STORE** out of sight and out of reach of children, teens and others who may misuse them.

**PROPERLY DISPOSE** of unused opioids at a drug take-back location/event or with a medication disposal bag designed to deactivate opioids.

**DON'T SHARE** with family, friends or anyone at all. It may cause addiction, trouble with the law, overdose and death.
